UNIVERSAL HEALTH CARE...

**Putting bureaucrats  
in charge of our  
health care decisions.**

Not patients.

Not doctors.

Not trained medical professionals.

**Paper-pushing bureaucrats  
more interested in the  
bottom line than our health.**

**Don Cazayoux supports  
Barack Obama's universal  
health care plan** to put  
government bureaucrats in charge of  
health care decisions that should be  
made by doctors and patients.

Cazayoux supports a universal health  
care plan that would **leave millions of  
Americans without coverage** at a price  
of \$65 BILLION a year.<sup>1</sup>
